

Special Committee Probes Ocean Rates On Farm Products

Ottawa.—That there was a system of regular meetings of representatives of the shipping companies at which rates on various farm products were decided upon to the detriment of the consumer, was the subject of a report made by Philip Currie, General Manager of Montreal in the White Star Line, in his evidence before the special House Committee on Agriculture. The witness said that the rate on livestock from Montreal to Liverpool would probably be \$22.50 when Montreal markets opened. At present the rate (on Portland) is \$23. Mr. Currie was subject to a great deal of questioning at the hands of the chairman, A. R. McMurtry, and stated that there were "unwritten laws" between the shipping companies as to freight rates on various classes of farm products and a gentlemen's agreement on other commodity lines.

"You think the larger volume of cattle would have a tendency to increase the rate?" asked Mr. Currie (Progressive, Montreal).

"Witness admitted the rate might go to \$25 a head."

"Is there any justification for that increase?" Mr. Currie asked.

"We are trying to make money with our ships," witness replied. "If the trade would stand the increase, it might be made."

The minister gave minute instructions that the condition of the cattle should be wired from St. John, N.S., where they will take the train, and come from the vessel carrying them whenever possible, valued from \$100 to \$150 a head.
